

Fields That Cannot Be Edited in Helix ALM List Windows

You can edit fields directly in the Issues, Requirements, Requirement Documents, Test Cases, Test Runs, and Folders list windows in Helix ALM (and TestTrack 2011 - 2016.1). The following field types cannot be edited in list windows:

- System fields that are automatically populated by Helix ALM, such as Status and Has Emails
- Calculated fields, such as time tracking totals
- Workflow event fields
- Defect reported by fields, such as Found By User and Version Found
- Multi-line text fields, such as Description
- Test case and test run steps
- Test variants
- Requirement types
- Any other fields that cannot be modified in the item Edit dialog box
