

Turning Off Cookies in SoloSubmit

SoloSubmit uses cookies to automatically enter user contact information. After users enter this information once they do not need to keep re-entering it (unless they delete the cookie file). You can disable SoloSubmit cookies if you need to.

1. Create a backup copy of the SoloSubmit.htm file.
2. Open the SoloSubmit.htm file in Notepad or another text editor.
3. Find the following code.

```
function writeCookies()  
{  
var expdate = new Date ();  
expdate.setTime (expdate.getTime() + (365 * 24 * 60 * 60 * 1000)); // 365  
days from now  
with(document.theForm)  
{
```

4. Comment the function writeCookies code.

```
//function writeCookies()  
//{  
//var expdate = new Date ();  
//expdate.setTime (expdate.getTime() + (365 * 24 * 60 * 60 * 1000)); // 365  
days from now  
//with(document.theForm)  
//{
```

5. Save the SoloSubmit.htm file. Cookies are now turned off.
