

Surround SCM File Status Icons

Surround SCM displays an icon next to each file to indicate the file's current status. The following table shows all of the possible icons and their corresponding status.

Icon	Status
	File is not currently checked out, shared, or in a pending changelist
	File is shared
	File is checked out to you

	File is checked out exclusively to you
	File is shared and checked out to you
	File is shared and checked out to you exclusively
	File is checked out to another user
	File is checked out to another user exclusively

	File is shared and checked out to another user
	File is shared and checked out to another user exclusively
	File is checked out to multiple users
	File is shared and checked out to multiple users
	File is checked out to you and another user

	File is shared and checked out to you and another user
	File is in a pending changelist
	File is shared and in a pending changelist
	File is checked out to you and in a pending changelist
	File is checked out to you exclusively and in a pending changelist

	File is shared, checked out to you, and in a pending changelist
	File is shared, checked out to you exclusively, and in a pending changelist
	File is checked out to another user and in a pending changelist
	File is checked out to another user exclusively and in a pending changelist
	File is shared, checked out to another user, and in a pending changelist

	File is shared, checked out to another user exclusively, and in a pending changelist
	File is checked out to multiple users and in a changelist
	File is shared, checked out to multiple users, and in a pending changelist
