

QA Wizard Pro Supported Technologies

The following technologies are supported and tested. For a list of supported controls, see the [QA Wizard Pro help](#).

Note: QA Wizard Pro supports all HTML elements in supported web browsers. See the [system requirements](#) for supported browser versions.

- **ComponentOne Studio for WinForms** 2006.2 - 2012.1 for CLR 2.0 and later
 - **Delphi .NET Windows Forms** 2006, 2007, 2009 (Prism)
 - **Delphi Win32/VCL** 2006, 2007, 2009, 2010, RAD Studio XE - XE3
 - **DevExpress .NET WinForms Controls** 2006.3 - 2012.1 for CLR 2.0 and later
 - **Eclipse Java SWT** 3.0 - 4.2
 - **Infragistics .NET Windows Forms** 2006.1 - 2012.1 for CLR 2.0 and later
 - **Janus Systems .NET Windows Forms Controls** 3.0, 3.5 for CLR 2.0 and later
 - **Microsoft .NET Windows Forms** 1.1, 2.0, 3.0, 3.5, 4.0, 4.5
 - **Microsoft .NET WPF** 3.0, 3.5, 4.0, 4.5
 - **Microsoft Active Accessibility (MSAA) Controls** - MSAA accessibility information is captured and the default accessibility action can be performed. MSAA information can also help QA Wizard Pro identify common controls.
 - **Microsoft Visual Basic (pre-.NET) 6** only
 - **Microsoft Windows** - Standard controls in any of the [supported Windows versions](#).
 - **Nokia Qt** 4.0 - 4.8, 5.1, 5.5 (32-bit only)
 - **Oracle Forms** 10g Release 1 and 2, 11g Release 1 and 2
 - **Oracle/Sun Java AWT and Swing** J2SE 1.4.2 - Java SE 8.0
- Note:** QA Wizard Pro 2009 and later can test applets running in AppletViewer. QA Wizard Pro 2012.2 and later can test applets running in web pages.
