

QA Wizard Pro Server RDBMS Support

The QA Wizard Pro Server database can be stored in a Relational Database Management System (RDBMS) instead of the native format. Following are the supported database vendors and versions for the current version of QA Wizard Pro.

- Microsoft SQL Server 2008 Enterprise Edition, 2012 Enterprise, Standard, and Express Editions
- Oracle 10g, 11g
- PostgreSQL 9.1, 9.2, 9.3, 9.4, 9.5

Note: If you use Oracle, you must download and install the Oracle OCI driver on the QA Wizard Pro Server computer.

Refer to the [QA Wizard Pro help](#) for more information about setting up RDBMS databases.
