

# Defect Scribe System Requirements

Following are the minimum Defect Scribe system requirements.

- 1.5 GHz CPU
- 2 GB RAM
- Microsoft Windows Vista, Server 2008, 7, 8, Server 2012, 8.1, 10

To use Defect Scribe, the Helix ALM desktop client must be installed and you must be a member of the local Administrator group on the computer. Without this access, you may not be able to record actions. Ask your system administrator for help.

## Supported browsers

- Microsoft Internet Explorer 6 - 11
- Mozilla Firefox 3.6 - 54 (Firefox 55 and later not supported because of architectural changes to Firefox)
- Google Chrome 41 - 64 (Chrome 68 and later will not be supported because of architectural changes to Chrome)
